

GEA

CIRCOSUPER SFM 25LTR - 4090-7722-590

Product Description:

GEA CircoSuper SFM 25L is an **acidic liquid cleaning agent** specifically formulated for use in **milking equipment** and **milk cooling systems**. It effectively removes **milkstone** and **limescale deposits**, ensuring optimal hygiene and extending the lifespan of dairy equipment. This cleaner is particularly suitable for areas with **soft to medium-hard water**.

Key Features:

- **Effective Deposit Removal:** Efficiently eliminates milkstone and limescale, maintaining cleanliness in milking systems.
 - **Material-Friendly:** Gentle on equipment materials, preserving their integrity over time.
 - **Versatile Application:** Suitable for all types of milking and milk cooling equipment, including automated systems.
 - **Optimized for Water Hardness:** Designed for use in regions with soft to medium-hard water, ensuring consistent performance.
-

Usage Instructions:

1. **Pre-Rinse:** Begin with a lukewarm water rinse to remove residual milk.
2. **Cleaning Cycle:** Use **CircoSuper SFM** at a concentration of **0.4%** (i.e., **400 ml per 100 liters of water**).
3. **Water Temperature:** Maintain a cleaning solution temperature between **40°C and 60°C** for optimal results.
4. **Post-Rinse:** Conclude with a rinse using potable water to ensure all cleaning agents are removed.

*For comprehensive cleaning, it's recommended to alternate daily between acidic cleaning with **CircoSuper SFM** and alkaline cleaning agents.*

GEA CircoSuper SFM 25L is an essential component for dairy operations aiming to maintain high standards of hygiene and equipment efficiency.
